Internet	Broadband*** Internet Connection Required. Minimum speed of 512 Kbps upstream and downstream.	^
^	^	^
ProDemand.com / Truck Labor / TruckSeries		^
Component	Minimum System Requirements	Recommended
CPU	1.5 Ghz	2.4 GHZ or higher
Operating System*	Windows XP 32-bit; Windows Vista, Windows 7, Windows 8, Windows 10, and Windows Server 2012^1, 32 or 64 bit (Latest service packs applies to all)^	
Memory	1.0 GB	^
Hard Drive	250 MB for cache files	2.0 GB Free Space
Network	3com or Intel.	^
Input Device	Keyboard and Mouse	^
Monitor	Minimum Supported Resolution 1024 x 768	^

^ [For more information about Windows 10 support, click here.](#)

* Older Windows Server platforms (Server 2003, 2008) are not supported at this time. Virtual environments or Windows emulation are also unsupported.^

^

*** Broadband connections are defined as Cable Internet, DSL 1.5 Mbps or higher, or T1 and higher connections. Satellite and wireless connections are generally not advisable.

^

Active Directory/Domain environments are not supported; only peer-to-peer workgroups. Windows Server 2012 Foundation and Essentials are not supported and both versions come with the Domain Controller feature of Windows Server in a state where you cannot disable it.

^

The minimum requirements listed above apply to the current set of applications; they may not be compatible with future software releases. Please note the majority of Mitchell1 applications require administrator-level privileges. Attempts to limit user permissions may result in incorrect program function. If you have any questions, or for the most current information, please contact Technical Support at 888-724-6742.
