

Mitchell1 Manager/ManagerPlus

WiseConnect Electronic Parts Ordering Installation

Requirements

The computer system requirements for the Mitchell 1 Manager System and WISEConnect are the same as when using any other electronic catalog. Ideally the shop should be using Windows 2000 or XP and the network must be connected to the Internet. The Internet connection should be a broadband connection.

Medium

The WISEConnect catalog is entirely Web based and requires no installation; the catalog provides connectivity to ACDelco warehouses throughout the United States and Canada.

Functionality

Provides fast part lookups using category/subcategory, job lists, part number, description look-up, keyword searches and labor times. The WISEConnect catalog provides real-time quantity and price checks.

Enabling

- 1) From the home screen select **Setup / Special Maintenance > Toggle Catalog Availability**
 - a. Set the radio button to **'On'** for WISEConnect
 - b. Click on **Save & Exit**
- 2) From the top menu items select **Setup / Vendor Setup**
 - a. Create or Edit an existing Vendor Record, with the vendor edit screen open click on the **Setup Link** button.
 - b. With the Link Type Selection window open, select **Setup WISEConnect Link** and click **OK**
 - c. In the WISEConnect Vendor Information screen, enter the same User Name and User Password you would when accessing <http://nexpart.com>
- 3) Open any Estimate, RO or Invoice and click on the ISEConnect button to use the integrated catalog.
