

30/60/90 Button Error Msg - How To Fix

Article Number: 1 | Rating: 1.7/5 from 3 votes | Last Updated: Wed, Jun 11, 2008 at 10:56 AM

After pressing the 30/60/90 button you receive a message that says, "Cannot start your application. The workgroup information file is missing or opened exclusively by another user." This error means that the **cmdsyst.pps** file is corrupted and is not allowing access to the 30/60/90 information. To resolve this error copy a new cmdsyst.pps from the Winner's Circle disc to the MDB folder. The MDB folder is located in \MITCHELL1\MANAGER\SERIES1 or 2\MDB or \SNAPON\SKSM1 or 2\MDB. The cmdsyst.pps is located in \LEASE\SERVICES\SMSI.ZIP on the Winner's Circle disc.
