

## Enable Integration to use OnDemand5.com or ShopKey5.com

Article Number: 108 | Rating: 1/5 from 2 votes | Last Updated: Mon, Jul 20, 2015 at 11:07 AM

**Web Integration Instructions** Your ManagementÂ program now includes the option to integrate to OnDemand5.com or ShopKey5.com if you are already a subscriber.

During the Quarterly Update (08-2) you will be prompted to install Microsoft Dot Net Framework 2.0 to activate the interface *if not already present*. Select YES at this point if you want to integrate to the new web interface. After the upgrade disc is finished you will need to â€œTurn Onâ€• the Web interface inside the manager application as follows:

To start,Â be on the 'Home Screen' (splash) in the program. If inÂ 'Work In Progress' Screen, click onÂ 'WIP' or 'In Progress' icon to switch to the 'Home Screen'. Click on 'Setup' menuÂ and then select 'Special Maintenance',Â then 'Select Ref Source'. [if dimmed you are not on 'Home screen'] A new selection is now available for either 'Local' or 'Web Source'; select 'Web' and click 'OK'. Do not select â€œUse Alternateâ€!â€•  
NOTE: You must have an ondemand5.com or Shopkey5.com subscription in place PRIOR to making this changeover.
