

Manager Crashes when using drop down selection on Technician

Article Number: 629 | Rating: Unrated | Last Updated: Fri, Mar 1, 2013 at 12:19 PM

Problem: In the labor item edit window, clicking the down arrow to select a technician crashes Manager without any error.

Versions affected: 5.9.x, 6.4.x

Solution: Issue is caused by Comcast Constant Guard software by Xfinity. The program can either be removed or configured to work with Manager. Mitchell1 is not responsible for configuration of third-party software.
