

## Setup for Gmail or Yahoo Email Accounts For Use With SE Shop Mgmt.

Article Number: 713 | Rating: Unrated | Last Updated: Tue, Aug 5, 2014 at 10:04 AM

You can set up Windows Live mail to work with GMAIL, YAHOO and many others - which then allows a user to email from Manager

### Setting up Yahoo Mail in Windows Live Mail

**Launch Windows Live Mail.**

**Click Add e-mail account.**

**Enter the following information:**

**E-mail address - Your full Yahoo Mail email address (e.g., [user@yahoo.com](mailto:user@yahoo.com))** This email address is being protected from spambots. You need JavaScript enabled to view it. .)

Password - Your Yahoo Mail password.

Remember password - Clear this check box (optional) if you don't want Windows Live Mail to retain your Yahoo Mail password

Display Name - The name you want to display on your sent messages.

Select Manually configure server settings for e-mail account.

Click Next.

In the "Add email account" window:

Make sure your settings match the POP settings for Yahoo Mail.

Select This server requires a secure connection (SSL).

For "Log on using," select Clear text authentication.

Select My outgoing server requires authentication.

Click Next.

- The message, "You have successfully entered in the information required to set up your account" will appear.

Select Set this account as the default mail account.

Click Finish.

### Access a Gmail Account in Windows Live Mail Using POP

**To set up access to a Gmail account in Windows Live Mail:**

**Make sure POP access is turned on for your Gmail account.**

**Go to Mail under Shortcuts in Windows Live Mail.**

**Click Add an e-mail account at the bottom of the list.**

**Type your Gmail address under E-mail address:.**

**Type your Gmail password under Password:.**

**Enter your name under Display Name:.**

**Make sure Manually configure server settings for e-mail account. is not checked.**

**Click Next.**

**Click Finish.**

**Click Send/receive in the Windows Live Mail toolbar.**

**That's it. By now, a Gmail account should have appeared in the folder pane, and if you had any mail waiting in Gmail, it is now in its Inbox.**
