Job View

Job Containers Create Polished, Organized Documents with Ease

Are you spending too much time rearranging line items to make your invoices look better? Do you wish you could easily check job profitability while preparing estimates? Introducing Job View, a powerful new feature in Manager SE 9.1 that allows you to efficiently organize labor operations and parts for every job.

Job View organizes everything into easy-to-read, grouped job elements on the screen and in customer documents. With Job View, shops can work more efficiently and customers can better understand the services performed.

- ▶ Elevate clarity of estimates & invoices
- ▶ Facilitate quicker customer approvals
- ▶ Boost efficiency for service writers
- ▶ Enhance profitability for every job

KEY FEATURES

Job View Containers: Segment tasks on-screen and in resulting estimates or invoices for better clarity and organization.

Transmission fluid exchange	
Labor	Transmission fluid exchange
+ Part	Kendall Versatrans ATF Quart
+ Part	AUTOMATIC TRANSMISSION SRVC KIT 2-PART

New Job Quick Menu

Check Profit per Job: Quickly confirm profitability of each individual job or overall order profit. Gross Profit per Hour \$ added as an additional profit measurement.

Job-Specific Discounts: Apply discounts to individual jobs, plus order-level discounts, allowing for greater flexibility.

Handle Deferred Work with Ease: Move deferred jobs to the Revisions screen with one click, automatically naming that sub-estimate for easy reference.

Seamless History Job Transfer: Copy any job from History to either current Order or Revisions with one click, simplifying the reuse of past work.

Instant Canned Jobs: Create canned jobs from job containers with one click—just name it, and it's ready for future use.
