

Quick Start Guide

SureTrack Preview Covers Driveability.

Additional Systems Coverage Coming Soon.

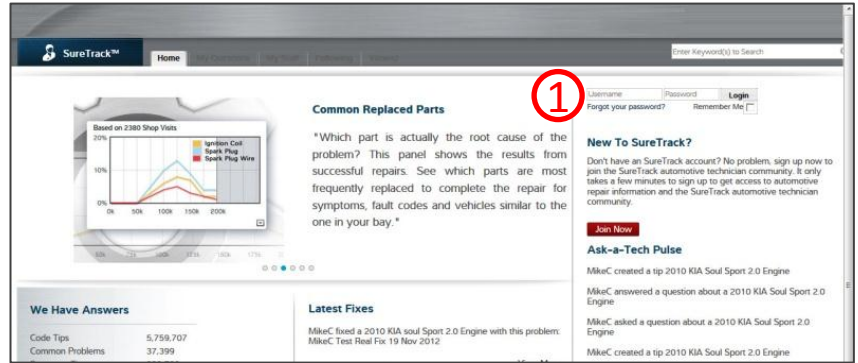

SureTrack is the all-in-one expert information source to help you fix vehicle problems quickly and easily. Here are a few pointers to help you get started.

Access SureTrack any one of two ways:

- On a ProDemand® Repair Information System, click on the SureTrack button on the tool bar.
- On a web-enabled Snap-on diagnostic tool, click on the SureTrack icon on the home screen.

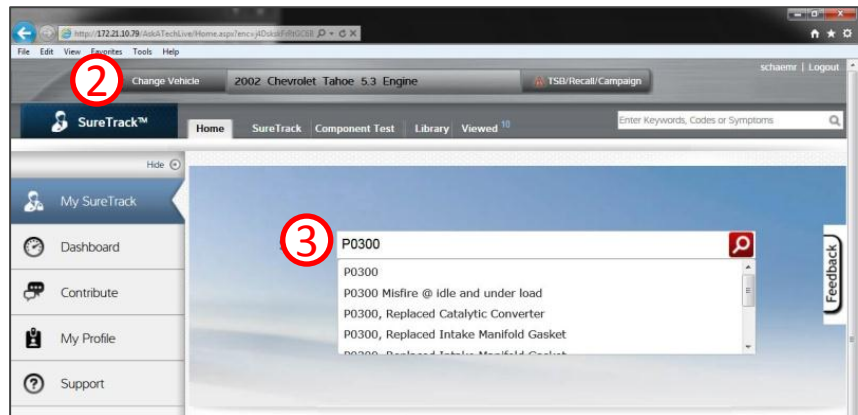

1) Login with your username and password.
If you are new to SureTrack, click “Join Now” first to create an account.

Hint... Check “Remember Me” to stay logged in.
Create an account by clicking the “Join Now” button.

2) Pick a Vehicle - Click the “Select Vehicle” button and select the vehicle attributes. *Hint... Selecting all vehicle attributes and a system will give you better search results.*

3) Lookup the Information - SureTrack’s single-point lookup lets you access all SureTrack resources with one click. *Hint... Enter a few characters into the search bar and SureTrack suggests selections to help you begin. Click on a suggestion and see the answers.*

4) Real Answers!

Note the tabs across the top to help organize the answers you see – SureTrack, Component Test, Waveform Library, Recently Viewed

SureTrack Tips combine real world fixes and data:

- Common Replaced Parts graph of common repairs
- Fast-Track® Troubleshooter tips & timesavers
- Real Fixes – Fixes created from real world repairs
- OEM service bulletins, recalls and campaigns
- Guided Component Tests & operational information
- Library of actual vehicle PID graphs and waveforms

5) Have a Question? Go ahead and Ask the Experts on SureTrack to get answers from the Community.

Note: you must be a member and be logged in to use this feature

Hint... Don’t forget to close the question so SureTrack community members get rewarded for their help.
